

Dear Students,

as previously announced, the VisMedia student exhibition called – Visualization, Emerging Media, and User-Experience (VisMX) will be taking place on the 9th November 2018 in Curtin’s HIVE. You can find more information about the event on www.visemex.org.

The event is the main event for students on all levels of VisMedia to exhibit their works, and will be well attended by industry, Curtin staff members, and fellow students. The event also hosts interesting keynote speakers, and awards will be given to the best projects.

The plan is to have the setup of projects in the morning between 09:00-11:30 and open the exhibition sharp at 12:00. The exhibition will be opened till approx. 16:00. At the end of the exhibition, there will be a best project award for the category best “Data Visualisation”, best “Creative Project”, and best “Technically Challenging Project”.

We are very happy to announce, that Prof. Doug Vogel from the School of Management, Harbin Institute of Technology, China will be giving a keynote address entitled “Research with Impact and Making a Difference”. More information about Prof. Doug Vogel’s activities can be found on http://som.hit.edu.cn/EN_SomHit/teacher/716227107656.html. In addition, previous VisMedia alumni as e.g. Adam Greenfeld will be talking at this event about job opportunities in the domain of VisMedia, and give an overview of his recent achievements.

Please note, that any student that has been attending any units offered by the wide range of VisMedia study program units as e.g. Mobile, Locative and Ubiquitous Media; Data Visualisation and Interpretation; Interactive, Virtual and Immersive Environments, etc. is welcome to submit projects. This also extend towards postgraduate works, or doctoral study works. However, to harmonise activities, build the program, and help us in creating the technical support for projects, **please register your project on: <https://goo.gl/forms/upDvbrW2BvjEftZq1> by LATEST 31st OCTOBER 2018.** You will need a representative image of your project (e.g. some screenshot), a brief abstract, and give us some information about the technical requirements you are having in setting up the project. However, please be aware, that we won’t have enough computers available to show your projects, thus we kindly ask you to bring your laptops with the running projects as well.

You are very warmly welcome to invite friends, colleagues, or family. Please make sure that they are registering for the event on: <https://www.eventbrite.com.au/e/vis-mx-vis-em-ex-2018-visualization-emerging-media-and-user-experience-2018-tickets-51502800262>. Space will be limited.

Good Luck for the Awards at the Exhibition,

Artur Lugmayr
